

Hamilton-Wenham Chronicle March 19, 1997

Citizens' rights violated?

To the editor and fellow citizens:

I ask your help to support a fellow citizen who is being robbed as I write. The FDIC, a government agency intent on concealing fraud, is poised to evict John and Rhetta Sweeney of 24 Meyer Lane in Hamilton. I have served on the Planning Board in Hamilton for over 20 years and have never witnessed a more flagrant example of violations of a citizen's rights. Since 1988, in approving a subdivision plan for the Sweeneys. I have watched develop a; chain of fraud - overseen by federal agencies and the federal courts.

I have never before been confronted with the prospect of property in Hamilton tainted by known fraud being repossessed and then sold. It won't be with my signature.

It has been said that to merely acknowledge the presence of evil is not enough; one must push up against it. I urge all my fellow citizens to contact the Sweeneys for the facts and then communicate with your Sixth District representative and senators. The price of indifference is this kind of tyranny.

**Sincerely,
Peter P. Britton**
